

# AMERICAN PACKAGING MACHINERY, INC.

## Integrated Tray Forming and Shrink Wrapping

### MARKETS SERVED

#### CANNING

- \* Fruits
- \* Vegetables
- \* Jellies/Jams
- \* Peanut butter
- \* Oil/marinade
- \* Salad dressing
- \* Coffee creamer

#### BEVERAGES

- \* Water
- \* Juices
- \* Milk
- \* Carbonated beverages
- \* Sports drinks

Single and double-stacked products are possible on our equipment

## Integrated Tray/Shrink System

Production speeds to 75 trays/min with minimal change over

### BEST IN CLASS DESIGN!

Fully automatic

Small footprint

98% line efficiency

30% less energy used

Electronic Controls

Fully integrated

**MADE IN THE USA**

## Why should *YOU* buy from American Packaging Machinery?

### WE SHRINK YOUR PACKAGING COSTS!

- \*Every machine component is designed with longevity, reliability and a minimum of operator involvement as its top priorities. To assure our machinery remains consistent from design to assembly, all engineering and manufacturing is done in-house.
- \*Heavy-duty welded tubular steel frame provides a solid base to absorb and deflect *all* vibration. A stainless steel frame is also an available option!
- \*Product handling and transfer aides are also designed in-house to provide gentle handling for each specific application
- \*All profiles are stored in the HMI, along with all adjustments listed; providing fast, accurate change order for any skill level
- \*Solid, hardened steel: One piece seal bar fully coated provides long-life with minimal maintenance
- \*Our systems are designed for open sides, natural film enclosure OR positive side seal devices for complete film enclosure.
- \*We are able to meet Category 3 and 4 safety protocol
- \*Our electronic motion controls eliminates many parts; providing reliable service with less maintenance
- \*The APM shrink tunnel design consists of the heat source, blowers and motors all mounted at the bottom of the chamber. This provides *immediate access* to parts for maintenance when necessary.
- \*The five-inch thick mineral block insulated tunnel chamber provides reduced heat loss and maintains operator safety.

### SYSTEMS AVAILABLE:

#### INTERMITTENT MOTION SYSTEMS

- \* Drop packer with compact wrapper
- \* Combination wrap around case/tray former, loader with compact wrapper and by-pass mode
- \* Intermittent tray former, loader and compact wrapper
- \* Intermittent tray former, loader and printed film wrapper

#### CONTINUOUS MOTION SYSTEMS

- \* High speed tray former, loader and continuous motion wrapper
- \* High speed tray former, loader and print film wrapper pad insert available

#### UNSUPPORTED SYSTEMS

Printed film wrapper with custom product handling in-feed system can run clear film as well. Pad inserter available.

Two roll wrapper with custom product handling infeed pad inserter available

Easy access to motors

Easy load film racks
